Patient Handout

If you have a cold or flu...

At Grant Street Clinic we want to provide safe waiting areas for our patients who may be elderly or have chronic disease.

If you have cold or flu symptoms – with OR without a Fever:

If your illness is mild and you don't need medical attention try to minimise spreading your germs with careful hand hygiene and using your elbow to cover coughs and sneezes.

If you need medical attention please call ahead to the clinic and we will make arrangements for you to be seen outside the clinic building. Please notify the receptionist if you have travelled overseas in the last 14 days or if you have had contact with a known case of coronavirus.

You can also call NSW Healthdirect on 1800 022 222 for advice.

If you have breathing difficulty or severe cough go directly to the Emergency Department of your nearest Hospital.
